

第一步

在gui钱包中添加Its资产

Add Custom Token to Track

Enter the account for any custom token contract you wish to monitor.

Contract Account Name

Itsonenumivo

Contract Asset Symbol

LTS

Add Custom Token

Close

在contractAccountName中填写Itsonenumivo 在contract Asset Symbol 填写LTS 然后点击按钮。你就可以在gui钱包中看到如下图：

<div>ENU</div> <div>enu.token</div>	Liquid	97.9110 ENU
	Staked	18.0000 ENU
	Total	115.9110 ENU
<div>THQ</div> <div>thankyoucoin</div>	0.0000	
<div>LTS</div> <div>Itsonenumivo</div>	20001.0000	

第二步

进行Its到enu主网的映射

- 打开<https://wallet.enumivo.com/swap-token-lts-lts> 看到如下的图

Step 1. Send your LTS Token to **enu-ltsmainnet-swap** with a memo. Please wait until your transaction is successful before continuing. (Estimated Waiting Time: 3min)

Important! Please do not send your token without a memo. The memo will be used as a password to validate that you own the transaction. A memo can be any random word or a paragraph. *Example: yellowbanana*

Step 2. Enter the transaction Block Number.

*You can get the block number by searching your account activity then view the transaction details.

Step 3. Enter the LTS account name sender

Step 4. What is the memo text?

Step 6. Enter your existing mainnet account

Step 7. Click Submit

- 根据步骤第一步打开<https://liteshares.io> 登陆自己的账号，然后点击send看到如下界面

to:填写：**enu-ltsmainnet-swap**

数量的话自行决定。

memo：注意这里一定要填写。内容的话你可以填写单词或者其它自己想写的英文内容。没有硬性要求。

- 点击send 确认转账。之后打开账户中查看你的转账信息所在的区块高度。ps 查看区块高度可以在dashboard 中查看

点击transfer可以看到

BLOCK #3882490

- Date: August 2, 2018, 8:54:27 PM
- Witness: [init30](#)
- Previous: 003b3df911e81a74b82482771898175ba334407c
- Transaction count: 1

←

→

TRANSFER

From	woshiwjw11
To	enu-ltsmainnet-swap
Quantity	300.00000 LTS
Fee	0.20898 LTS

回到映射的界面将信息填入

Step 1. Send your LTS Token to **enu-ltsmainnet-swap** with a memo. Please wait until your transaction is successful before continuing. (Estimated Waiting Time: 3min)

Important! Please do not send your token without a memo. The memo will be used as a password to validate that you own the transaction. A memo can be any random word or a paragraph. *Example: yellowbanana*

Step 2. Enter the transaction Block Number.

*You can get the block number by searching your account activity then view the transaction details.

Step 3. Enter the LTS account name sender

Step 4. What is the memo text?

Step 6. Enter your existing mainnet account

Step 7. Click Submit

如上图所示。

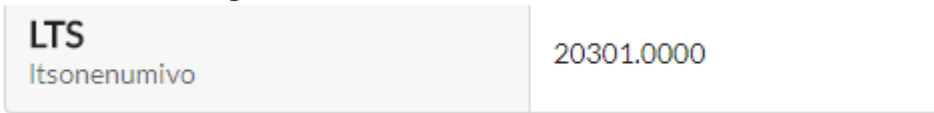

step2：填入block高度

step3：你传送的lts的账户名

step4：你填写的memo信息

step6 你的enu主网账号名。确认无误后submit。

- 之后的一会时间你就可以看到你的gui钱包中的lts增加了如图

以上就是一个lts转到enu主网的简陋教程。
